

# Attends® Numbering System

The Attends products are numbered from **0 to 10** where **0** is the lowest and **10** the highest level of absorbency. Within the Numbering System, there are different categories of products, eg. Shaped Pads, Pull-Ons, Slips, and Flex. Some of the absorption levels have several different product designs and fixation methods available for you which allows you to choose the product that best fits your needs. Always check with your Health Care Professional which Attends product is available in your region.

		Light Urinary Incontinence			Moderate Urinary Incontinence		Heavy Urinary and/or Faecal Incontinence					
		Loss of a few drops of urine, sometimes even a small gush. For women this can be associated with coughing, laughing, sneezing or exercise. For men this means a loss of a few drops of urine which often occurs after urination.			Small and sometimes larger gushes of urine. Do not always reach the toilet in time. Can have an urgent desire to pass urine.		Pass large amounts of urine. Do not reach the toilet in time. No bladder control. Can also include bowel/faecal incontinence.
